#### **Train Derailment, Elk Grove, Sacramento County, Hazardous Materials Spill Report #17-1286**

On 02/10/17 at 1302 hours, the California State Warning Center (CSWC) received a report from Union Pacific Rail Road (UPRR) advising that a derailment occurred in Elk Grove, Sacramento County.

- 23 rail cars derailed as a result of a collapse on a small train bridge due to flooding The location of the incident is the Fresno Subdivision, Milepost 56.20. This is near HWY 99 and Dillard Rd., Elk Grove, Sacramento County.
- Per UPRR, approximately 14-17 railcars derailed into the Cosumnes River overflow, not the river itself
- Per Cal OES FDO, current identified commodities have been food based product (flour, tomato paste) but on scene resources continue to investigate. Some of the cars derailed upright and some of the cars are possibly upside down
- There are no injuries reported
- There are no confirmed hazardous materials release at this time
- Local agencies are on scene
- There are no requests for state assistance at this time
- Updates will be provided as information becomes available
- CSWC made notifications per SOP

#### **Mudslide, I-80, Placer County**

On 02/10/17 at 1003 hours, Caltrans reported that a mudslide occurred on I-80 near Colfax, Placer County which closed both directions of the roadway.

- Caltrans crews are on scene performing cleanup operations
- There is no estimated time of reopening at this time
- A detour is available for passenger vehicles through SR49 to SR20

### Cal OES INLAND (continued)

#### **Oroville Dam Spillway Incident**

- On 02/07/17 at 1000 hours, the Department of Water Resources (DWR) notified the California State Warning Center of an issue with the main spillway at Oroville Dam.
  - At this time, there is no concern with the Dam itself. There is no impact to the public.
  - Flows down the main spillway are currently being dictated by the models that are being updated every 6 hours.
  - Oroville Dam Spillway flow was increased from 55,000 cubic feet per second (cfs) to 65,000 cfs at about 0230 hours on 2/10/17. Total Lake Oroville Complex outflow has remained at 55,000 cfs to decrease rate of erosion.
  - Field command has been delegated authority to potentially increase the release from the main spillway by 5,000 cfs at a time, if conditions allow. At this time, they are limiting releases in an effort to protect the power plant (due to turbulence at the bottom of the spillway) and DWR high tension towers (erosion on the right wall which is inching towards the towers). Although losing the towers will not impact the power grid, it will impact the dam's ability to produce power long term.
  - Monitoring the situation 24 hours a day continues to be a priority. The most current models have the emergency spillway engaging sometime Saturday morning. Efforts are being made to ramp up releases from the main spillway to minimize, and if possible, avoid utilizing the emergency spillway altogether.
  - A Cal OES Fire Branch Assistant Chief has been assigned as an Agency Representative
  - A Cal OES Deputy Regional Administrator has been assigned the Incident Command Post
  - 3 Cal OES Public Information Officers have been deployed to the Joint Information Center

#### **Sacramento Weir, Sacramento County**

- Sacramento Weir is being operated to maintain stages in the Sacramento River at I Street below 30 feet. DWR staff opened 10 gates on the Sacramento Weir on 02/08/17 at 2300. On 02/09/17, an additional 15 gates (25 total) on the Sacramento Weir were opened at 0800 hours then an additional 21 gates (46 total) on the Sacramento Weir were opened at 1900 to maintain stages in the Sacramento River at I Street below about 30 feet. The Sacramento Weir has 48 gates in total. Sacramento Maintenance Yard is monitoring stages at the weir to ensure operational criteria are maintained.

#### **Train Derailment, Buena Park, Orange County, Hazardous Materials Spill Report #17-1299**

On 02/10/17 at 1737 hours, the California State Warning Center (CSWC) received a report from Union Pacific Rail Road (UPRR) advising that a derailment occurred in Buena Park, Orange County, due to a broken rail.

- Locomotive #UP2730 derailed in the upright position at or near milepost marker 501 of the Santa Ana Industrial Lead. The locomotive was part of train #LOA39R of the 10th.
  - No road crossings were involved, no mainline closures were imposed
  - There were no injuries reported.
  - There was no hazmat release.
  - The locomotive has since been re-railed.
  - CSWC made notifications per SOP
-

# **SITUATION SUMMARY**

## **2017 Statewide February Winter Storms**

### **State Agencies**

#### **Activations**

- The State Operations Center (SOC) activated to level 2 to support the Regional Emergency Operations Centers and local partners activated for severe weather.

#### **State/Federal Agency Preparatory Activities:**

#### **California Nevada River Forecast Center**

- The California-Nevada River Forecast Center is currently at 24-hour staffing through Thursday night and will issue four hydrologic forecasts per day.
  - Staffing will be adjusted if conditions change.

#### **Department of Water Resources**

- The Department of Water Resources (DWR) Flood Operations Center (FOC) will be activated with an Operational Period of 0600-2200 hours.
  - Beginning 02/11/17, the FOC will be activated 0700-1900 hours
  - 1900 hours - 0700 hours – Duty Officer Status.
  - A daily briefing will be conducted at 1000 hours until further notice.

#### **Cal OES Law Branch**

- The Law Enforcement Branch continues to monitor weather changes with the predicted incoming winter storms.

#### **Critical Infrastructure.**

- None reported at this time.

# SITUATION SUMMARY

## 2017 Statewide Winter Storms

### Cal OES Coastal Region

#### **Activations**

Coastal Regional Operations Center has returned to Level 1 activation

- Sonoma County EOC – Level 2

#### **Mission Tasking**

**2017-LAW-30324, 2/9/2017, 2005 hours**, Sonoma County Sheriff's Office(SCSO) requested (2) High Water Vehicles with operators capable of traversing flooded roadways to assist with potential evacuations from the greater Guerneville and Monte Rio area for an operational period beginning at 0700 hours, 2/10/2017. Cal OES LEB coordinated with California National Guard(CNG) for the requested resources. **Update: At 2309 hours**, CNG accepted the mission and will deploy a Liaison Non-Commissioned Officer(LNO) to the Sonoma County EOC and (2) High Water Vehicle Teams to the SCSO Substation in Guerneville. **Mission On-going.**

#### **2017-SOC-30115, Scotts Creek Levee, Lake County**

- CALFIRE has been tasked to provide Hand Crews to assist with construction of a couple of small sandbag rings to contain boils starting to form near the Scott's Creek Levee at Hwy 29. The location is about 1/4 mile West of the gate on the West side of Hwy 29.

#### **School Closures**

Del Norte County

- Klamath schools continue to be closed due to flooding in area

Sonoma County

- Guerneville School, Guerneville

#### **Two Alarm Fire, Chinatown, San Francisco, San Francisco County**

On 02/03/17 a Two-Alarm fire displaced residents from a two story Chinatown building, as a result the American Red Cross and Salvation Army have established a shelter to assist them.

- Salvation Army Chinatown Corp, 1450 Powell Street, San Francisco
  - Midnight Shelter Count: 15

#### **2017 February Winter Storm Proclamations**

- On 02/09/10 at 1354 hours, a Resolution was received from Napa County due to the 2017 February Winter Storms. There are no requests for State or Federal Assistance.
- See Proclamation Slide.

#### **2017 January Winter Storm Proclamations**

- See Proclamation Slide.

# **SITUATION SUMMARY**

## **2017 Statewide Winter Storms**

### **Cal OES Coastal Region (Continued)**

**River Forecast - The following rivers are forecast to meet or exceed Flood stage:**

#### **Lake County:**

- Clear Lake at Lakeport is forecast to be above flood state at 9.9 feet the morning of 02/11/17.
  - Potential Impacts: Low lying structures and some main roads around the lake are threatened by the high lake levels.

#### **Sonoma County:**

- Russian River at Guerneville is forecast to be above flood stage at 34.4 feet the afternoon of 02/10/17.
  - Potential Impacts: Moderate flooding is forecast to occur with the lowest sections of Guerneville and Monte Rio expected to flood. The south end of the Guerneville bridge is expected to be inundated. Mirabel Trailer Park and Resort are forecast to begin flooding.

**River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:**

**Del Norte County:** Klamath River at Klamath

**Humboldt County:** Mad River at Arcata; Eel River at Fernbridge

**Please see link for River Forecast Guidance -** <http://www.cnrfc.noaa.gov/>

- Cities: City of Duarte, City of Diamond Bar, City of Chula Vista, City of National City, City of Poway, City of Pismo Beach, Town of Mammoth Lakes

# Key Points

The last in this current series of storms will finally be winding down today. Drier and warmer conditions are expected for the northern 2/3 of California while the south remains wet into Sunday. Although precipitation is decreasing, flooding will continue right into next week.

- Flooding along unregulated rivers, streams, roadways, and low-lying areas today and running high through the weekend.
- Heavy snow will cause hazardous travel over Sierra passes with travel delays likely today with lingering impacts over the weekend.
- Winds will be strong enough to down trees and cause prolonged power outages today through the weekend.
- Rockslides and mudslides possible, especially along mountain slopes and steep grades today.
- Thunderstorms are possible today, with the potential for small hail, very gusty winds, and flash flooding.
- Debris flows are also possible over burn scars with periods of brief heavy rain (greater than 0.50" per hour) Friday.
- The next storm in the upcoming series will begin to impact CA coastline by Wednesday next week.

# California OES Impact Threat Matrix

### Service Interruptions:

#### **Community of Pike, Sierra County**

- The community of Pike in Sierra County has had no phone service since 0800 hours, 02/09/17. AT&T advised the county that earliest service would be restored, is Sunday, 02/12/17.
- AT&T was advised that residents can not call 9-1-1. Pike is located in the south west corner of Sierra County, the Pike Zip code is 95960, which belongs to North San Juan, Nevada County, and the phone Prefix for Pike, is 288, which is the same as Camptonville, Yuba County.
- AT&T reports that a "Remote Terminal Cabinet" is down

### Remote/Community Isolations:

- None reported

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

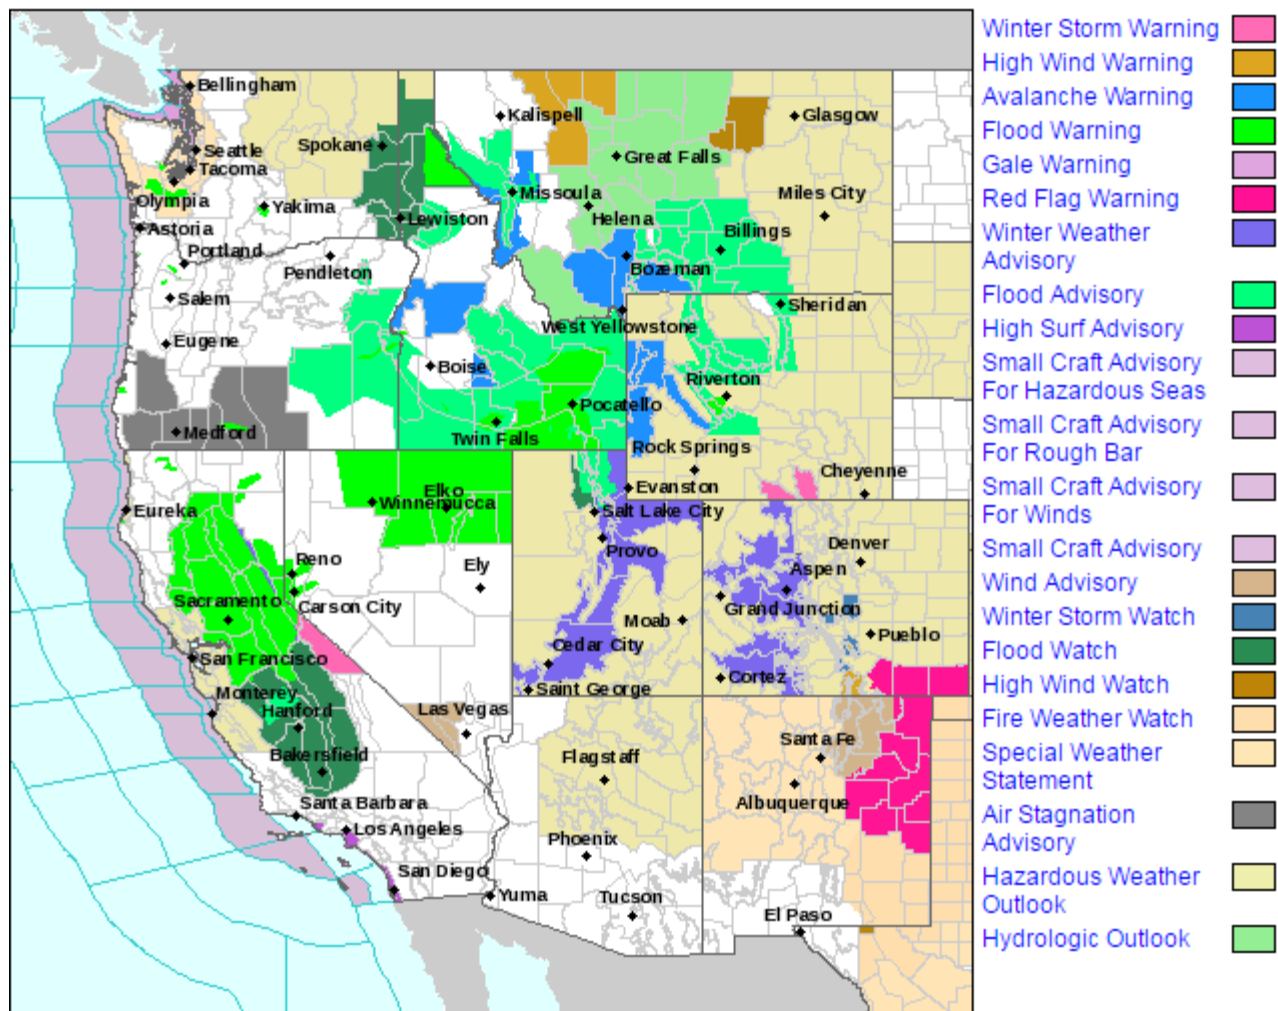

The storm system moving into Northern California today will continue to produce moderate to heavy precipitation with snow levels above 7000 feet. SE to SW winds will gust to 50-60 mph in many open areas and 80 mph or higher in the most wind-prone mountain locations. The main cold front associated with this storm is still offshore, but it will move through the region from west to east later today. Once the front passes winds will diminish and turn W-NW and snow levels will begin to drop as the steady precipitation turns to showers. Snow levels will gradually drop to 3000 feet in the north and 4500 feet in the south by midday Friday as widespread showers continue in the mountains and scattered showers continue in the valleys. Showers will come to an end prior to sunrise Saturday. High pressure will move overhead Saturday through Tuesday and produce warm and dry conditions with occasionally gusty N-E/offshore surface winds from the western Sierra slopes to the coast. On Wednesday the next approaching Pacific storm system will begin to spread clouds and increasing southerly winds over the region, and rain may move onshore overnight. That storm system is expected to impact the region through Friday, followed by another one a couple days later.

## **SOUTHERN CALIFORNIA**

A Pacific storm will bring showers to Central California through Saturday morning and to Southern California through Saturday night. Most locations will receive an additional 0.50 to 1.50 inches of rainfall with this storm. The snow level will drop to between 5,000 and 6,000 feet by Saturday morning. South to west winds of 15 to 30 mph with gusts to 50 mph will surface across the mountain ridges and desert passes through tonight. Temperatures will cool to near normal today, with mid 40s to mid 50s across the mountains and upper 50s and 60s in the valleys. Temperatures will cool another 5 degrees Saturday. A ridge of high pressure will build into California from the Pacific Ocean bringing a warming and drying trend to the region Sunday through the middle of next week. North to northeast winds of 20 to 40 mph with gusts to 60 mph will surface across the mountains and below the canyons and passes of Southern California Saturday night through Sunday night. At this time, it looks as though a series of Pacific storms will move into the West Coast bringing periods of heavy rain to the entire area along with strong south to west winds across the mountains and deserts starting Thursday.
